

BRIEFINGS

Briefings are a series of 11 short books, packed together for the first time – the big picture of the Christian faith in the remaining pioneer areas of the Earth.

Richly illustrated, complete with maps, notes and further reading, this unique collection charts the emergence of the Christian Church at the final frontiers.

Based on extensive travel, interviews and research, they tell up-to-date stories of pioneering Christian faith – the history, the key struggles, the cultural settings, the prospects for the future.

'This is just what the churches need: clear, accessible, punchy and essential!'
Jonathan Lamb, International Fellowship of Evangelical Students
'These Briefings are brilliant!'

Patrick Johnstone, author of *Operation World* and *The Church is Bigger Than You Think*
